Plan of full-time second-cycle studies with a general academic profile in the field of Transport

A. Subjects common for the course of study

۱n	Subject	Number of teaching hours							ECTS	Weekly number of teaching hours ^{**)} (one semester is completed within 15 weeks)																	
Lp.	. Subject	Total				ECIS	Semester 1							Semester 2						Semester 3							
			W	С	Р	L	K	S		W	С	Р	L K	S	ECTS	s W	С	Р	L	K S	ECTS	W	С	Р	L	K S	ECTS
1	Stochastic Processes	30	15				15		2							1				1	2						
2	Statistics in Engineering Work	30	15	15					2	1	1				2												
3	Mathematical Methods in Transport	30	15	15					3	1 e	1				3												
4	Transport Modelling and Planning	30	15	15					2	1	1				2												
5	Modern Programming Techniques	30	15				15		2							1				1	2						
6	Reliability and Safety Theory	30	15				15		3	1			1		3												
7	Applied Mechanics	30	15	15					2							1	1				2						
8	Measurement Systems in Transportation Practice	30	15			15			3	1			1		3												
9	Innovative Means and Infrastructure of Transport	30	30						2	2 e					2											T	
10	Traffic Management and Control	30	30						2	2 e					2											T	
11	Teleinformatic Systems in Transport	30	15			15			2							1			1		2					T	
12	Contemporary Issues in Transport Organization and Technology	30	30						2	2 e					2												
13	Selected Issues of Copyright and Industrial Property Protection	15	15						1													1				T	1
14	Preparation for Research	15	15						1													1				T	1
15	Elective Course - Humanities or Social Sciences I	30	30						2							2					2					T	
16	Elective Course - Humanities or Social Sciences II	30	30						2													2				T	2
17	Elective Technical Course 1)	30	30						2													2 e				T	2
18	Elective Technical Course in a Foreign Language 1), 3)	30	30						2													2 e				T	2
19	Master's Diploma Seminar	30						30	2																	2	2 2
20	Master's Thesis	45			45				20															3		T	20
21	Diploma Internship 4)								2												2					T	
	Total number of teaching hours and ECTS points	585	375 60 45 30				45 30		61	11 3 0 1 1 0				19	6	6 1 0 1 2 0			12	8	8 0 3 0 0 2			2 30			
	Total number of teaching flours and ECTS points	303	585						01	16					10					13							
	Number of exams		6							4							0						2				
	Number of tests		23								9 9						5										

Comments:

- *) W lecture, C exercises, L laboratory, P project, K computer classes, S seminar
- **) Classes highlighted in light blue may be conducted using distance learning methods and techniques, with their learning outcomes verified during in-person sessions.
- 1) A set of elective courses for a given academic year is subject to acceptance by the Faculty Council.
- 2) It is required that through completing the "Elective Course Humanities or Social Sciences II", the student should achieve the learning effect No. Tr2A_W14.
- 3) In case of studies conducted in English, instead of the "Elective Technical Course in a Foreign Language", the student may take 2 hours a week of foreign language course with a workload corresponding to 2 ECTS score points. This may be used to prepare student to the foreign language exam at the C1 Academic level.
- 4) Two-week diploma practice is implemented after 2nd semester if the thesis topic requires it.
