

AGH International Student Conference: Knowledge, Technology and Society

10-12 October 2018, AGH UST in Krakow (Poland)

We are pleased to invite students and their supervisors to attend the **AGH International Student Conference: Knowledge, Technology and Society (AGH ISC)**. The conference will be held on **10-12 October 2018** and will be hosted by **AGH University of Science and Technology in Krakow, Poland**.

AGH ISC Conference is conceived as a forum for the presentation of scientific activities of students. It is a place to share scientific work, explore new possibilities between research fields, create new friendships and account the very first successes in students scientific career. It is also an attractive opportunity to publish papers in the international open-access journals indexed in Web of Science (and other recognized databases). The conference will include both plenary and poster sessions as well as Student Projects Award (the competition for the best students projects).

Beyond the scientific part of conference, the participants have an excellent opportunity to get to know Krakow - the magical city of Polish kings and bishops.

Below you can find some useful information. **We very much look forward seeing you in Krakow!**

MAIN TRACKS

IMPORTANT DATES

PUBLISHING OPTIONS

The wide range of conference topics is grouped in the four main tracks:

Technical sciences

Mathematical, physical and chemical sciences

Environmental sciences

Humanities and social sciences

31 January 2018
Early registration

15 April 2018
Regular registration

15 June 2018
Manuscripts submission

Book of Abstracts
with an ISBN number

Open Access proceedings
abstracted e.g. in
Web of Science

Monograph dedicated to
the conference

AGH International Student Conference: Knowledge, Technology and Society

10-12 October 2018, AGH UST in Krakow (Poland)

CONFERENCE SCOPE

Conference topics include, but are not limited to:

Track 1: Technical sciences

- Acoustic Engineering
- Applied Computer Science
- Automatic Control and Robotics
- Biocybernetics and Biomedical Engineering
- Chemical Engineering
- Chemical Technology
- Civil Engineering
- Computational Engineering
- Electrical Engineering
- Energy Engineering
- Environmental Engineering
- Geodesy and Cartography
- Heat Engineering
- Informatics
- Management and Production Engineering
- Materials Engineering
- Mechanics and Construction of Machinery
- Mechatronic Engineering
- Metallurgy
- Mining Engineering and Geology
- Power Engineering
- Telecommunications
- Teleinformatics
- Transportation

Track 2: Mathematical, physical and chemical sciences

- Biochemistry
- Biotechnology
- Chemistry
- Geophysics
- Informatics
- Mathematics
- Medical Physics
- Physics

Track 3: Environmental sciences

- Biophysics
- Ecology
- Environmental Protection
- Geodesy, Surveying and Cartography
- Geophysics
- Geology
- Mining
- Tourism and Recreation

Track 4: Humanities and social sciences

- Economy
- Humanities
- Management Production Engineering
- Social Informatics
- Sociology
